

Strizo stone carpets are decorative and wear-resistant floor covering systems based on coloured or non-coloured quartz, which is turned into a seamless floor finish using a high-grade epoxy binding agent.

Strizo stone carpets offer a range of practical properties, including the following:

- SWear-resistant
- Durable
- Low maintenance
- Non-allergenic
- Insulating
- Fire-proof

Depending on grain size, Strizo stone carpets are applied in layers of 6 to 12 mm.

Applications:

Strizo stone carpet

Strizo stone carpets are available in many colours and endless colour combinations, and in three gain-size varieties: 2-3, 3-4 and 4-6mm.

Strizo Forte

Stone carpet with high-performance pressure and wear resistance properties thanks to the use of a special Strizo binder (Strizo EP 230) and an extra topcoat (Strizo EP 320). Specially suited for higher-than-average loads. Supplied with a standard 5-year guarantee.

Sealed surface variety

The open structure of this stone carpet has been sealed with Strizo AC 310, so that grease, moisture and dirt can easily be removed. Ideal for use in a variety of spaces, such as toilet areas, reception areas, entrance/exit areas of workshops, etc.

Applications:

Strizo stone carpets are ideal for a functional and decorative floor finish in showrooms, exhibition halls, offices, shops, reception areas, residential areas and public spaces. Strizo stone carpets are suitable for virtually any type of stable substrate and combine very well with floor heating systems.

Installation:

Processing: To be installed by specialised processing companies, possibly with the help of mechanical distribution and compression machines.

Substrate: Strizo stone carpets can be applied to virtually any type of stable substrate, provided it is dry, clean and non-greasy. Stone carpets can also be used to cover tiled or wooden floors for renovation purposes, provided the original floor is properly pre-treated.

System options

Below are some examples of systems. However, as each floor is different and each load requires different properties, please apply for custom-made floor advice.
